Stephanie Whyte

Bio

Stephanie was born and raised in Jamaica where her innate passion for design was nurtured by her mother who had a keen sense of style. On immigrating to Canada, she pursued her love for interior design. Her contemporary design, wabi sabi aesthetics, complimented by her standard of excellence and modern style, elegantly transforms any space.

After a decade as a Visual Merchandising Director for one of Canada's leading furniture retailers, she went on to manage one of Quebec's high end furniture boutiques. Her exquisite style, impeccable taste, and endless creativity, made her one of the most sought after design consultants.

She was approached by a real estate agent to stage a property nestled in the Gatineau Park. Stephanie found the rental of quality, luxurious furnishings and accessories to be almost impossible. She began to put together an inventory of custom and exclusive pieces, and staged the property, which sold in two weeks. That work was featured in Quebec's french design magazine, Sofadeco. Stephanie has since procured a selection of classy, quality furnishings, unique accessories, and custom artwork.

This was the birth of Signature Luxe Inc, luxurious staging and signature design.

Whether you are staging a million dollar project, or designing a small space, Signature Luxe Inc will bring its unique brand of style and creativity to the equable client, and years of expertise to the most captious.
